### Two Day National Seminar on FYUGP: Possibilities and Challenges

19th & 20th January 2024

#### CALL FOR PAPERS

#### Concept Note

Education concentrates on equipping individuals to adjust to the constantly evolving conditions of society. The main aim of education is to aid individuals in cultivating, improving and actualizing their inherent potential. The fundamental goal of the Undergraduate Programme in Education is to create and distribute knowledge, skills and values through education, hands-on training and research. This is designed to support, uphold and enhance the functioning of individuals, families, groups, organizations and communities within society. The undergraduate Education curriculum has been updated to include new learning elements, ensuring its applicability to contemporary society and modern practices. The Four-Year Undergraduate Program (FYUGP) is anticipated to be highly relevant for prospective graduates with an interest in education and its practical application. This initiative seeks to enhance the dynamism and adaptability of Education by improving the skills of students, thereby boosting their employability.

#### Thrust Areas

- FYUGP: Applicability and Importance
- Elements of FYUGP
- FYUGP and methodologies in Teaching
- FYUGP: The Revolutionary Changes in the educational Sector
