Mechanism of internal/ external assessment is transparent and the grievance redressal system is time- bound and efficient

#### **Response:**

The college employs formative and summative assessment procedures to ensure robustness and transparency, with a well-established grievance redressal mechanism. A three-tier grievance redressal system is in place to effectively address grievances. The evaluation process consists of two components: internal assessment contributes twenty percent of the marks for each paper, while the remaining eighty percent is awarded by University-appointed examiners based on students' performance in semester-end examinations.

# 2.6 Student Performance and Learning Outcomes

2.6.1

Programme Outcomes (POs) and Course Outcomes (COs) for all Programmes offered by the institution are stated and displayed on website

#### **Response:**

**Programme Outcomes (POs)** state the knowledge, skills and abilities the graduates and postgraduates should imbibe at the end of the programme. **Programme Specific Outcomes (PSOs)** state what the students learn specifically from the programme. The departments create **Programme Outcomes (POs)**, **Programme Specific Outcomes (PSOs) and Course Outcomes (COS)** adhering to the learning outcomes set and published in the syllabuses by the university.

Training on **Program Outcomes (PO), Program Specific Outcomes (PSO), and Course Outcomes** (CO) is provided by the College/IQAC to acquaint teachers with Bloom's Taxonomy, the tool used for measuring attainment.

The College communicates the **POs**, **PSOs**, **and COs** of all programs offered through its **website and department notice boards**.

At the beginning of each academic year, department meetings are held to assign courses and communicate with faculty members individually.

The PSOs and COs, as per the university syllabus, are conveyed to the respective teachers of the concerned papers.

**Orientation Programmes** are organized by the College for first-year students at the start of each academic year. The program's details, including its nature, syllabus, examination pattern, and outcomes, are communicated to students during this event.

Faculty members communicate COs to students and address their doubts while introducing topics every semester.

Exhibition of POs and PSOs is arranged in front of respective departments, and COs of each course are displayed inside the classroom for better awareness.

## 2.6.2

#### Attainment of POs and COs are evaluated.

#### Explain with evidence in a maximum of 500 words

#### **Response:**

The **assessment process** employs both direct and indirect measures to gauge the attainment of **course outcomes**. These measures include

**Direct measures** 

**Internal Examinations** 

Assignments

**Seminars/Presentations** 

Indirect measures

Attendance

**Class Participation** 

Pre-Course Test: At the outset of each Semester of Inquiry, instructors evaluate students' prior

knowledge and experience before commencing new learning endeavours.

**Formative Evaluation** Ongoing assessments conducted throughout the unit or learning process, encompassing a range of formats such as orals, debates, role plays, MCQs, etc. These assessments are also referred to as assignments & Seminars.

**Summative Evaluation:** Conducted at the conclusion of the teaching-learning process, pre-planned and often taking the form of internal exams. These assessments are designed to allow students to demonstrate their learning within well-defined contexts and apply it in novel ways. Question papers for exams are crafted with consideration for the corresponding weightage of **Course Outcomes (COs)** and must align with them, facilitating the calculation of student performance for each CO.

**Evaluation of Program Specific Outcomes (PSOs) and Course Outcomes (COs)** is conducted through assessments and learning tasks structured according to Bloom's Taxonomy. Assessment outcomes and task achievements are synchronized with COs, and student performance in tests and assignments directly influences the attainment of each CO.

Summative and Formative marks are graded on a 3-point scale. The average score on this scale serves as the overall attainment for the respective course. This score is then correlated with COs and PSOs, and each Attainment score is calculated accordingly, resulting in the final attainment score.

# Indirect techniques include

Feedback collection annually through a structured format prepared by the department on CO and PO attainment strategies.

Analysis of feedback at the department level, followed by detailed discussions.
